Assignment - 1

Problem Statement : Whenever a student goes in Higher standard, Their is a lack of various useful books which are rarely available especially in rural areas.

1. Executive Summary Snapshot : When a student Ascends in Higher standard, There is a necessity of reference books and good quality notes. Students find it hard and time taking to find such books & sometimes they prefer used ones. Our main goal is to reduce that problem through other Students who are willing to sell their old used books at reasonable prices.

- Research has shown that students often encounter difficulties in sourcing old, used textbooks and good quality notes for their cources.

- This research indicates that The lack of availability of these books can lead to increased educational costs and hinder access to essential study materials.

- This issue is compounded by the limited presense of physical bookstores with second hand books & the inefficiency of online platforms.

- The scope of this project is to decrease this problem by developing an app and ~~wl~~ website to connect the sellers and ~~by~~ buyers of old used books.

2. Project Description :

The Primary goal of this project is to roll out an application and website to reduce the efforts of students who are finding old used books and good quality notes for their cources. We are also going to add other type of books such as self help books, finance management books which people want to buy at cheap rates and with good condition of books.

By undertaking this project, we will ensure that we meet our goals, namely those of increasing our stakes significantly, reducing user's efforts, readers efforts and to avail useful books at cheap prices.

3. Project Scope :

In scope item 1 - Conduct furthur research concerning unavailability of specific books.

In scope item 2 - Conduct a campaign and advertise app to engage potential book buyers and sellers.

In scope item 3 - Avail live location of sellers for buyers to find nearby sellers.
